**NEW SALE TIME
1:00 pm (DST)**

**THE SALE WITH
BULL POWER**

SEMEN TESTED

Presidents Welcome

With great enthusiasm, welcome to the 13th Annual Cattleman's Classic Bull Sale! We as cattle producers made it through the rough patches in the industry and are finally reaping the benefits.

The optimism this fall and winter was contagious no matter where you went. One thing that was evident was high quality, heavy weight calves paid large dividends come sale day. Selecting a herdbull has never been as important as it is today.

The quality presented to you by the consignors in this long running sale is superb. Whether you are looking for a top quality Charolais, Simmental, Black Angus or Hereford bull this sale is a one stop shop for the cattle producer. These are good bulls backed by good guys!

The bulls offered in this sale are affordable. In 2012, 67% of them sold between \$2000-\$3500. This gives you a great "bang for your buck" as there is a bull for everyone's budget.

I would like to take this opportunity to thank everyone who has supported our sale during the last 12 years and welcome any new buyers. Without your support we wouldn't be here today. Thank you!

If you cannot make it to the sale or have any questions about the offering feel free to give myself, the consignors or any of the capable sales staff a call. We would be happy to hear from you. See you at the sale!

Merv Nykolation

SALE INFORMATION

AUCTIONEER: Brent Carey 403.650.9028

RINGMEN: Nathan Marin 306.869.7130
Scott Campbell, Fraser Auction Services/

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque payable at par at Heartland Livestock unless satisfactory credit arrangements have been made with the clerks of the sale before any cattle will be released.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold.

BIDS: All animals sell to the highest bidder.

DISPUTES: In cases of disputed, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision will be final.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalogue will be announced from the auction block and such announcements take precedence over printed matter in the catalogue.

BREEDERS GUARANTEE: All bulls will carry the standard breeding guarantee as specified by the applicable Canadian breed association. At no time shall the seller's liability exceed the purchase price of the bull. No guarantee is given that semen from any bull will freeze.

AMERICAN PURCHASES: The sellers will do all health testing and complete all export papers required for export. Bulls will be delivered to the nearest point of entry at the seller's convenience.

The associated costs of export are the responsibility of the buyer. Exchange rate will be announced sale day at current bank rates. All bulls are guaranteed exportable to the USA.

LIABILITIES: All persons who attend the sale do so at their own risk and the seller, Cattleman's Classic assumes no liability for an accident that may occur, nor any liability for loss or injury to livestock due to theft, mysterious disappearances, sickness, improper handling or Act of God. Cattleman's Classic acts only as a medium between the buyer and seller. They are not responsible in any way for any failure in the part of the buyer and the seller to live up to his obligations expressed or implied. Cattleman's Classic does not assume any financial

obligations to collect or enforce collection of monies between parties. Any legal action that may in exceptional cases be taken, must be between the buyer and seller.

CONTRACT: The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale constitutes a separate transaction and the rights and obligations of the two parties concerned thereto are not covered by the terms and conditions of this sale.

Welcome to our portion of the 13th Annual Cattleman's Classic Bull Sale! We are very proud of the bulls we are bringing to town this year for you to go through. Whether you are looking for a white, tan or dark red bull make sure you check out these guys. Our bulls are thick and hairy with built in calving ease and performance. TRI-N Charolais Farms is a mixed grain and cattle operation consisting of both purebred and commercial cattle. The genetics offered in this sale are the same genetics we use on our commercial cows.

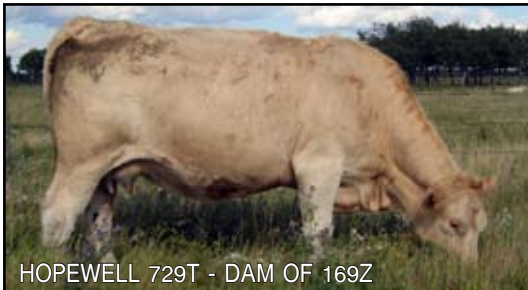

Our cowherd is on a complete herd health program including vaccinations for BVD, BRSV and IBR. The bulls were vaccinated with Inforce3 at birth along with all initial and booster requirements for Vista Once SQ and UltrBac Somubac 7. Thus enabling complete requirements for blackleg, BVD, BRSV, IBR immunities.

Once again our bulls are fed a crushed oats based ration with a complete mineral package from CO-OP feeds. Hay is changed regularly in order to enhance consumption. We have also doubled the pen space for more freedom of movement for the bulls. This will help them better adjust to walking our buyers' big pastures. More information on our program can be found at www.trincharolais.com.

REFERENCE SIRE PRO-CHAR CAPTAIN MORGAN 8U This year's sale will feature our first sons off of Pro-Char Captain Morgan herd bull. After seeing his sons when the chance came to purchase Captain Morgan we jumped on it! Captain Morgan is one of the most consistent sires ever used here at TRI-N producing calves with tonnes of middle, performance and structural soundness all in a calving ease package. **14 sons on offer.**

LOT 1 TRI-N CHATAHOOCHEE 169Z MC345554 NMF 169Z MARCH.1.2012 Double Red, 3rd Generation Polled

 HOPEWELL SELENA 148L

Here's a pretty interesting herdbull prospect to start off our powerful set of Captain Morgan sons. Possibly one of the best dark red bulls to sell this spring, Chatahoochee 169Z is a bull that possesses exceptional thickness, muscle expression and length of body all in a very eye appealing package.

Jesse Nykolfiation

The pedigree of Chatahoochee screams consistency! Sired by Captain Morgan who produces offspring that are "peas in a pod" and mothered by our Hopewell Sasfire 729T cow. 729T was our pick of the bred heifers at the Hopewell dispersal. She is a full sister to the prolific Hopewell Sasfire cow that set the red Charolais industry on fire. Siblings are working in the Morley Eastman (SK) and Cleveland Charolais (SD USA) herds. On March 24th make sure you take your operation to the next level and check out Chatahoochee!

Selling 2/3 interest and full possession.

Sometimes the future can be found in the past!! Thriller 173Z been a standout from day one and has grown into a very impressive herd bull prospect. Guts, nuts, butts this bull has it all!! He is sired by the great TRI-N Super Jammer 7J bull that is the cornerstone of the TRI-N herd. He left us a tremendous set of females and was our heifer bull for years. We calved approximately 200 commercial and purebred heifers to him throughout the years and had no difficulties giving Jammer a -4.7 BW EPD. If you study our pedigrees the majority of our cows go back to this bull.

His mother is an awesome, very moderate, thick, easy doing Payday daughter that milks like a Holstein and weans a calf almost as big as she is every year. Thriller was our heaviest bull when we weighed them in January. Study his pedigree and see his mother- he is what he is by no accident

The first annual Princess of the Marsh Jackpot Heifer Calf Show was held September 29th on the N7 Stock Farms, Douglas, MB. A three panel judging team selected Tri-N Montana 156Z, in this multi-breed futurity show, over 47 entries as Princess of the Marsh. The Charolais heifer was exhibited by Tri-N Charolais Farms. A portion of the jackpot proceeds will go to the Manitoba Roundup Show held annually in Neepawa in support of Manitoba youth involved in beef production.

CHAROLAIS

BEAVER CREEK CHAROLAIS ~ Lot 21 - 24

Welcome to the 13th annual Cattleman's Classic Multi Breed bull sale from all of us at Beaver Creek Charolais - Gord, Lisa, Ashley, Tristan & Kate-Lyne. Beaver Creek has been involved in this sale from its debut, at that time my parents felt the cattle industry was changing and there was a demand for a bull sale that offered more than one specific breed. We feel the quality of bulls in this sale has always been strong and constantly improving to bring us to today the 13th annual Sale. Thanks for joining us today and good luck with your purchases. This year's Beaver Creek bulls are off two different herd-sires Our past Herd-sire Beaver Creek Torque 222T, an outstanding Dark RED Performance Bull. We have a bunch of young females just into production off this bull and just love them, good momma's & great milkers And our new Heifer bull/Junior Herd sire FFBB Red Buckle Pld 16X. We purchased this bull for his overall structural soundness - moderate size and low birth weight. TO MY KNOWLEDGE THE ONLY RED SILVER BUCKLE IN THE BREED - OUTCROSS RED FACTOR

CONNECTION CATTLE CO. ~ Lot 25 - 26

We would like to take this opportunity to introduce ourselves - Barry and Larissa Peril. We believe in quality, not quantity. Our females have to be structurally sound from the ground up - solid feet & legs combined with problem free udders. The bulls on offer are sired by Elder's Stinger 115S, a bull we chose to add performance, hair and correctness. We are extremely pleased with how he has performed in our herd. The bulls have been fed a bull developer ration from Landmark Feeds with free choice grass hay. Please don't hesitate to give us a call to discuss our bulls or our program.

LOT 25 **BWP ZIP TIE 10Z** **MC345080** **BWP 10Z** **JAN.25.2012** **Double Polled**

From all of us at RSK Farms, we are extremely pleased to be involved with such a tremendous bull sale offering. The Cattleman's Classic Bull Sale has been around for many years and has been known for supplying top quality bulls to the beef industry. As we are the newest enrollment to the sale, we feel that we are providing the same great quality and value to the offering.

RSK is enrolled in the THE (Total Herd Evaluation) program of the Canadian Hereford Association because the collection of data helps us evaluate our own cattle against other breeding programs, as well as

within our own herd. We also collect carcass data on all registered animals through CUP. It's a great tool to help us improve and develop our herd, under the hide, where pounds are made. That's where our bull buyers make their money.

RSK Farms uses AI and ET technology to acquire desirable traits and improve genetic response through predictability and repeatability through number of progeny. This is quite evident, as you will find many flush mate brothers in the sale. Our offering for this year is mainly out of proven AI sires that offer great breeding strengths and benefits within each sire group.

Included are two full siblings to the 2012 MLE Little Lady Classic Champion Overall breeds, 2012 MLE Res, Heifer Calf and 2012 CWA Class Winner. RSK 59X Zeplin 78Z was on the 2012 MLE Res. Champion Female and 2012 MB Field Day Res. Champion 2yr Old.

All of the bulls in our offering have had all required vaccinations including: Covexin Plus, Pyramid 5PS and Ivomec . They are semen tested and carcass evaluated. The bulls are fed on a self feed 12% Beef Grower Ration in pellet form from Feed Rite and free choice grass hay. They have also been weighed regularly and are extremely easy to work with. All RSK Bulls will be sold and guaranteed according the Canadian Hereford Association Rules. RSK Farms reserves the right to draw semen on any RSK bull in the sale. Semen to be drawn at the sellers expense and buyers convenience and will be used for in herd use only.

We are very excited and proud of this year's bull pen, and believe it is our best yet. These guys will get out and work well, be efficient and make you money. RSK Farms invites you to join us in Virden, MB on March 24th for the Cattleman's Classic Bull Sale. Feel free to stop and see us or visit www.rskfarms.ca for all bull sale info and videos from RSK Farms.

- Extremely notable pedigree with some of the breed's best.
- Sires performance and volume, awesome pigment, color and shape.
- Trait leader in WW, YW and TM.

- Very popular AI sire that is changing the breed.
- Phenomenal BW to growth spread, low birth weight specialty sire.
- Trait leader in BW, WW, YW, TM, FMI and 4 others.

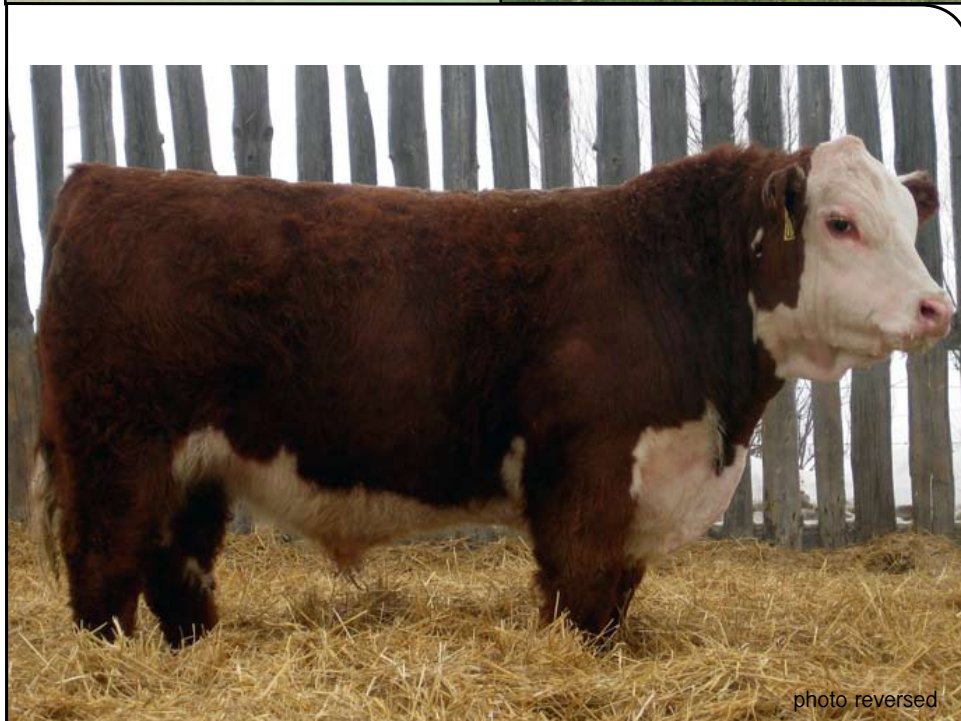

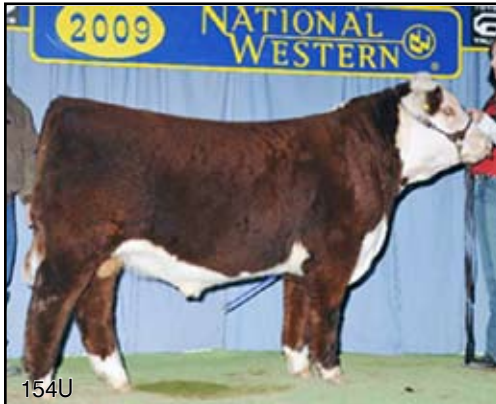

- Sires stylish and visually pleasing offspring with great shape and muscle.
- Trait leader in WW.

- Sires deep and soggy made calves with tones of flank.

BLACK ANGUS

GREENBUSH ANGUS ~ Lot 46 - 59

Good day and welcome to the Cattleman's Classic Bull Sale. I would like to thank the group for inviting our program into the sale. A little background on our program, along with myself, Tim, my wife Wendy and our two children Cora and Carson we operate a fifth generation family farm just North of Neepawa, MB where we breed approximately 120 purebred Black Angus females. We have marketed our genetics from Alberta to Quebec, as well as overseas. We believe in maintaining a strong maternal female base, that will produce replacement females and top quality breeding bulls. I select hard, and as you give the catalogue the once over you can take particular notice to our 14 consigned bulls. These bulls, as with any we market and sell are continually evaluated on feet, legs, milk and growth. Through a strong genetic program, we strive to maintain these qualities in our cow herd. As calves these 14 bulls did not receive creep feed, and were developed over the winter on an oat based ration, no barley. Take note of the Quiet Lad and TC Aberdeen calves as they will work well as heifer bulls. The Windy, Providence, Density, JVJ Dynamite 138X and Chisum offspring will work well as cow bulls. If you have any questions please feel free to contact me at home 204-966-3320, cell 204-476-6040 or by e-mail greenbushangus@xplornet.com. Please feel free to contact us for present weights and I will be sure to get them to you. See you at the sale.

SNAPSHOTS FROM THE 2012 SALE

Welcome to the 2013 edition of the Cattleman's Classic. After many years together in a joint sale, we bid adieu to the Southwest Bull Test Station consignment and wish them well. Our goal now as a group is to offer the commercial producer a top quality selection of multi-breed beef bulls in a one stop shopping experience. To this end, we at Broken Oak Black Simmental wish to welcome new consignors Brookmore Angus and RSK Herefords. We truly feel that these two established breeders will complement our offering quite nicely. Black Simmental cross very well with Hereford based cows if you're looking for those market topping steers or raising the ever popular black baldy female, and we have always preached that black Simmental is the logical cross for Angus based commercial cows if you wish to maintain the solid black color without sacrificing hybrid vigour. This year we will once again feature a stout group of "Beach Boy 362U" calves with lots of middle, rib, and quarter, and, once again, have on offer, a solid red one for your perusal. Also on offer, a "NLC Upgrade U8676" prospect I know you will like. Come early, appraise the entire offering, and stop by the stall. Lesley or myself will be more than happy to discuss your needs. As always, give us a call should you have any questions or need any more information on any of our consignments.

REFERENCE SIRE BROKEN OAK BEACH BOY 362U

An outstanding "HTP SVF IN DEW TIME" son that we are extremely proud to have bred and now works in the elite herd of Marlin and Ross Le Blanc, R Plus Simmental of Estevan Saskatchewan. His dam is the "MRS DOY RHONDA 362R" cow who is, without a doubt, my favourite cow on the ranch. A female with lots of frame yet still says "look at me", all the while still retaining her femininity. Complete in her structure and an excellent mother with above average mothering ability and the capability to produce more than enough milk than any calf could wish for. "Broken Oak Beach Boy 362U" produces bull calves that are attractive and tidy, while still looking masculine and with excellent performance. They possess lots of middle, heart, top and quarter and enough hair to carry them through our harsh winters. His service to us is limited now, so his progeny in Manitoba will be in short supply....Act now.

If you're looking for a young bull that knows how to dance, then check out this ET bull. Lesley used him in her heifer pen last season and when he ran out of work there she swung him into a pasture of select Angus cross cows. In total he covered over thirty head last year and still came off pasture looking pretty nice. Mar Mac Farms has had tremendous success with the "Hustler & Carli" cross and that is no accident. "Hustler" is a calving ease specialist with added performance and "Carli", we consider to be one of the best black females around today. A proven two year old with "Breeders Credentials", one that we maybe should be keeping.

Welcome and thank you for taking time to join us at Cattleman's Classic. Our black bulls will once again be led by our Predators & Murray sons with new for 2013 a couple of Stubby calves that we like. Our reds are a much better group, starting with the first sons of our walking bull IPU Accelerator 238X aka Barry, leading the way. We will finish out with two very impressive Fullbloods sired by Bar 5 Hemisphere. If time allows, we invite you to stop by the farm to see our bulls or come to Virden sale weekend and have a look and visit.

If you like your new herd sire to have the ability to produce, wide topped, spring of rib, muscle, great quarter, electric hair and great disposition in his calves with a paper trail of the who's who, here he is. Sired by Predator who is producing the most sought after black bulls in the country, then add his dam KASK 94W our flush daughter of the great Hass G217 cow makes Downey 204Z one of the elite black bulls to sell this spring! He has consistency in the blood and will not disappoint his new owner. Come and take this legend in the making home! Homo polled and black test pending

Babe did it again! Last year Babe's ET calf Downey 106Y, her 680 son, topped our sale at \$17,100 going to Mitchell Cattle Co. Downey 234Z resembles much of his 680 brother who is doing quite the job out in BC with his first calves on the ground with great results. 234Z is a bull that surpasses our goals as he is super thick, big butted, long with lots of depth, has had great muscle expression from a young age, and a back you could rest on. Predator and MRL 394T will only happen this once, so join us on the 24th to see Downey 234Z, the next generation! Homo Polled & Black Test Pending

For her first calf, this is quite the start. Downey 228Z is one of the most eye appealing and well-structured bull in our pen with great depth and length and has great muscle expression. His mother 530X is a young cow purchased from the Twin Brae Reduction Sale that caught our eye His sire is the breed leading sire, Stubby. This guy has calving ease but yet gives top and growth to his calves. They are productive progeny that are turning into top cows. If you are looking for great power and productivity in a bull's pedigree, then 228Z is the bull you need.

SIMMENTAL

MORE BRO'S SIMMENTALS ~ Lot 91 - 96

Our bulls were not creep fed during the summer as calves, and after weaning were fed a moderate energy ration. These two management decisions allowed us to evaluate their true genetic potential, and will also promote their soundness and longevity as herd bulls. They have tested BVD-PI negative and are tie broke and quiet. They are fully vaccinated as part of our comprehensive herd health program including receiving both their initial and booster Fusogard (footrot) vaccination. The birthweight EPDs on all of our consignments are in the top 25% of the breed. As herds get larger and people are busier, calving ease becomes even more important.

With a 79 lb. birth weight and calving ease and birth weight EPD's in the top 1% of the breed, this could be a heifer bull. As a calf, visitors picked out 202Z because of his extra stoutness having that herd bull look from an early age. He's not the biggest bull in the pen, but efficiency is inherited and his actual weaning weight of 815 lbs was 63% of his 2 year old mother's weight. If his heifer calves produce like his mother, that's all you could ask for.

A dark red bull out of a good uddered 2 year old who has done an outstanding job for her 1st try. A clean fronted real smooth bull, with lots of depth carrying back into a square hip. He has always been one of my favourites. Sired by Hooks Shear Force, who is noted for calving ease and producing great uddered females

Part of our summer string. He was along side his mother when she was selected Reserve Senior Champion Female at the Manitoba Simmental Association summer show. An extra long bull with a real full wide rear quarter. He has our top post weaning average daily gain. I would expect him to sire a great group of feeder steers.

 MISS ARNOLD J5844

A dark red, deep sided, deep quartered bull who can't help but be a good one. He is a full brother to our high selling female at last falls Keystone Konnection Sale going to Ryan Downey (Downey Farms). Good bulls come from good cows. 213Z's mother also produced one of our top bulls in the 2010 Cattlemans Classic sale as well as the 2 year old heifer in our show string this past summer, who was the supreme champion female at the Boissevain fair.
