WE WELCOME YOU TO THE 7TH ANNUAL ELITE GENETICS BULL SALE!

Some might say it was hard to stay optimistic in in 2020, but I am a cup half full type of guy! We saw higher then normal prices in 2020 for grain and livestock markets, favorable weather and an abundance of feed. Our first Black Angus calves hit the ground last spring and Jess and I are really enjoying building a bigger Angus herd that is backed by the strong Rideau name. The 2020 Hereford calf crop was amazing in quality and substance and I believe it showed during the Elite Genetics Production Sale in October and especially in this years Elite Genetics Bull Sale offering. We truly had much to be thankful for.

Covid and politicians threw us many curve balls this year. There were no shows to go to and sales were at limited capacities, which in turn made it hard to meet with all of our customers and friends. In a weird way though I believe it got us thinking outside the box on many things, especially when it came to marketing and promoting our programs. Social media became a very import part to the strategy and the importance of having an online sale and bidding platform was essential. That said we are very happy to have Liveauctions.tv with us on sale day!

The Elite Genetics Sale group prides itself on being progressive operations and breeders. We have made management and breeding selection decisions that are proving to increase productivity, quality, consistency, and profit in our product that will pass onto you, in your product. The depth and quality of this year's offering is second to none, and this year's sale offers a diverse group of breeding tools. Hereford, Angus and Charolais genetics make up this year's sale, three breeds that complement any cross breeding program!

We are excited to have Rideau Angus Farm and Butler Valley Livestock with us as new consignors this year adding some new progressive genetics. McCaw Livestock again have also brought some exceptional Charolais power bulls.

With over 35 yearlings presented in this group of bulls, they offer up a great set of breeding tools for the commercial or purebred breeders. Whether you need to add performance and carcass to your backgrounding and feeder operations or, add maternal power to develop replacements, this group of bulls will do it. Our calving ease bulls are designed to maintain growth and performance as well, which will make calving time easier for you, but put money in your pocket come fall.

Many Elite Genetics customers are repeat and multiple buyers. This tells us that it's not just a bull business, but also a people business. Our customers are pleased with the product, but more importantly happy with an honest, reputable and knowledgeable service. The continued support from our customers is what is keeping us in a business that we love. Elite Genetics takes pride in this detail.

As always, all the sale information will be online, including videos and pictures. Online bidding will also be available through Liveauctions.tv. Feel free to contact any Elite Genetics member for more assistance. Please join us for lunch and hospitalities on sale day! Also be aware that you can view the sale lots anytime!

See you sale day,
Andrew Kopeechuk

I don't believe that we have ever raised a bull calf that is this impressive and this complete of a package. Everyone that has seen him throughout the season has been blown away. Double Down offers a lot. Start off with structure and movement; he puts it together perfect. A big solid foot, great skeleton and very fluid in his movement. His skeleton carries so much mass, muscle and shape. The amount of meat and muscle is tremendous. He is soggy made, deep hipped and big topped. Double down is also attractive looking and well balanced, big goggles, pigment, freckles and big red testicles. His EPD profile boasts big performance numbers and very high maternal numbers.

His dam has out produced herself again and his sire All In is leaving a very big stamp on his progeny. Both dam and sire have an amazing show record to back them up as well. 2019 MLE Champion Female, 2019 Bonanza Champion Two Year Old, and 2018 CWA Canadian National Junior Bull Champion, to name a few.

We feel that there is a big future with Double Down! **Ranks top 5% REA, 15% WW and YW, 20% TM and 25 MM Indexes 123 on WW, 117 on YW**

OWNED WITH STEVEN KNUTSON :: **TERMS TO BE ANNOUNCED!** ::

SIRE :: ALL IN

DAM :: BC 20E

MATERNAL SIB :: RSK 11G

RSK Farms is a family-run mixed farm which began operation in 1984. The cow calf facilities are located approximately 7 miles east of Brandon, Manitoba, Canada along the Trans-Canada Highway. Bulls and females are developed 5 miles north of Douglas, MB at a second farm site. Sale and show cattle along with our donors are kept there as well.

RSK Farms breeds approximately 160 females which consist of Purebred Polled Hereford and Commercial Cross cattle. The land base consists of roughly 3 1/2 sections of both owned and rented land which is into annual crop, rotated perennial and annual pasture, for forage production and grain and hay sales.

RSK Farms uses AI and ET breeding strategies to source some of the breed's top genetics and in turn use our top producing females to create quality offspring that display improved consistency, performance maternal traits and carcass. Our herd are true beef cows, developed over generations of sound breeding, elite genetics and balanced traits. Our cow herd grazes as much as possible and are only brought into the yards for calving. Once in, they are feed a silage, hay, straw mixture. Replacement females are fed the same but supplemented with oats/pellet blend. All of the sale bulls have free choice oat/pea bailing and hay and are pail fed the same oats/pellet mixture in a big area that provides plenty

of exercise, which in turn promotes muscle developments over fat. All RSK bulls will be guaranteed to be free of DLF, HYF, IEF, MSUDF and MDF. Please note the some bulls are pending.

SPRING AND FALL VACCINATIONS CONSIST OF:

Pyramid 5 plus Presponse as an aid in the prevention of disease caused by IBR, BVD Types 1&2, PI3 and BRSV, and as an aid in reduction of severity of pneumonic pasteurellosis caused by Mannheimia haemolytica. Covexin 8 Plus to protect against diseases caused by Cl. chauvoei (black leg), Cl. haemolyticum (bacillary hemoglobinuria), Cl. novyi Type B (black disease or infectious necrotic hepatitis), Cl. perfringens Type B (lamb dysentery), Type C (hemorrhagic enterotoxemia), Type D (pulpy kidney), Cl. septicum (malignant edema) and Cl. tetani (tetanus). Pour on Ivermectin products are administered as well. Also Maxi Guard is given in the spring, before heading to pasture that controls Moraxella bovis bacterin for the prevention and control of pinkeye. At the time of fall booster shots, Quiet Weans (yellow nose clips) are inserted into the calves noses to prevent nursing and are left in for 5 days. This proves to be very effective for a low stress weaning solution. Strict emphasis is put on structural soundness, testicular development, do ability, performance, functionality and disposition!

Genetics from RSK Farms have been consigned to many sales over the past years and can be found throughout North America and the Globe. RSK Farms has had great success over the years showing and exhibiting cattle across the country. Showing cattle gives us another tool to gauge and evaluate how our herd is performing, and along with customer successes, we take pride in our track record.

While writing the footnotes for the All In bulls you are going to hear me say the words shape and style quite a bit, I believe Blackjack exemplifies these traits very well. He has the length, the shape and style. He is big hipped and big topped with a very attractive front. Blackjack is red necked and freckled as well. Prepare to feel lucky if you are the proud new owner of this up and coming herd bull. **Ranks top 15% for SC, 20% for YW and REA and 25% for WW Indexes 104 on WW, 101 on YW**

Visually and genetically I couldn't ask for a better made bull. I love the balance and package that Pit Boss boasts. His sire Truman is well known to add pounds, stoutness and pigment, add in the maternal power that Harlen has and you will really appreciate Pit Boss. He has great pigment and is red nuted. **Ranks top 25% for WW Indexes 103 on WW, 106 on YW**

Testimonial

We purchased our bull at the 2020 RSK sale. He was delivered when we were ready for him to go to work, upon preg. check it appears he has done his job. This bull is quiet and great to handle which is important in our operation. Looking forward to seeing the calves starting in March.

HAROLDSON'S 37H TAMARA 73L

Harper 70H is a powerful, long sided meat machine that will add some performance to his calf crop, but the best part might be his dam and the amazing cow family that she represents. She is one of the "OG" Tamara's, one of the ones that started the cow family. Harper's dam was the very first Hereford female to win the Little Lady Classic at AgEx and multiple class winner. This power made, stylish Truman x Tamara will be packed full of maternal, grow your herd type of traits, combining maternal and performance.

Hardcore 142H is a bold sprung and stout made bull that is really deep sided and good hipped. Visually appealing being dark red and big goggled this April 19 bull was just to impressive to not include in this years offering. We have three of these younger Hereford bulls in the offering this year and decided to sell them for anyone possibly looking for later breeding. He is out of the great RSK 154U Tamara 8X who is a donor female in the RSK herd. **Ranks top 1% for WW, 10% for YW and SC, 15% for TM and 25% for REA Indexes 111 on WW**

Testimonial

We've chosen RSK to be our Hereford bulls of choice for many years now. We chose to breed these Hereford bulls with our Angus cows and have enjoyed easy calving and see great gains on our calves. Many of our good choice Baldie heifers stay on our farm and go on to become great cows.

"Command" has been an eye catcher since the day he was born. The minute he arrived we knew this calf was special. He puts everything together so well, right from phenotype to genotype. Command possesses a massive hip, loin and testicles wrapped in a structural package that is hard to beat. His movement and fluidity are unmatched by many with everything planted on a big solid foot. Command completes the package with beautiful balance and appeal, great extension in his front with a skull and shoulder structure that makes me feel comfortable in using him on heifers.

Genetically, Command is jam packed with greatness. His sire, Endure is one of the most talked about Homoz Polled performance bulls to surface in some time. He was the high selling bull at NJW for \$150,000 and semen has sold at auction for as high as \$750. His dam, Riesling was purchased out of the Mile High Sale from NextGen in 2016 by Harvie Ranching & Blair.Ag and has demanded some of the top prices in the Hereford breed. She later went on to be named the 2016 CWA Champion Junior Female and CWA Reserve Champion Female! Her progeny has been topping sales and domination in the show ring!

Command brought \$16,000 for 1/2 interest in the Elite Genetics Online Sale to the Command Group of Breeders. Watch for Command to play a big role in the RSK program.

I remember the first time I saw a picture of Truman on Facebook, highlighting him in the Jensen carload and thought to myself, wow, what a calf, we need to use this guy. We were fortunate enough to acquire Truman with Harvie Ranching that year in the Mile High Sale for \$25000 US. What a great decision that was. Truman is stout and full of shape and muscle, he is short marked and cherry red, and to top it all off he is homo-polled and comes with a great set of numbers. For the past 3 years he has been a go to that has complemented our operation very well. His first daughters are coming into production and we could not be more please with the overall quality of his females. His bull calves type very closely to his phenotype and push down the scales adding pounds in the fall! Truman was successfully shown being named the 2017 CWA Canadian National Res Junior Bull and 2018 AG Ex Champion Hereford Bull and top 3 supreme finalist at AG EX!

What can I say about this guy that you don't already know! Digby is a direct son from one of the breeds most influential females, Firefly 51F! Digby is one of the most correct, fluid moving bulls in the breed. If you are needing to fix structure and movement, then he is the one! He has a presence and stature that can't be copied. Long necked and long spinned, he will add pounds and performance to progeny all while maintaining appeal and its evident in his progeny. Digby was very successfully show in 2017 being named: CWA Canadian National Champion Bull and RBC top 10 Finalist, Herefordbreeder.net Champion of North America, AG EX Champion Hereford Bull, Manitoba Summer MOE Champion Bull and Harding Supreme Champion Bull! Digby was in stud a lot of his early days, and needless to say we should have Al'd him a lot heavier seeing the progeny he is leaving us. He walks now at RSK with many more great years to come. Owned with Ehlike Herefords.

This guy has been an eye catcher from the start. A son of the Genex sire Playbook 48D, he has the length and shape that would work well for most. Out of a hard working momma cow with a very good udder. Maternal sister sold to Duncan Lees as a bred heifer in Good as Gold online sale this past December. Recommended for cows.

BUTLER VALLEY LIVESTOCK

Hello and welcome to this years Elite Genetics Bull Sale. First off we would like to say how much of an honour it is to be part of this years sale. The Kopeechuks have been great friends of ours for a very long time now and our small purebred Hereford herd got started with RSK genetics. This year we are offering up two bulls that have been real eye catchers since they were born. We believe that our bulls have the potential to go out and get the job done while adding that boost to a herd. Feel free to stop by the farm anytime before the sale to tour the bulls and the rest of our herd.

A very complete and attractive bull out of a Leader son that we purchased from RSK. Out of a first calf heifer, he weaned very well for being a March calf. A calving ease bull with some power and frame, should make him an ideal choice for cows or heifers.

SIRE :: REVENUE 5M2

There is quite a bit of history bred into this bull. My grandfather bought his mother from the Remitall Dispersal as a bred heifer. 55H is built to last with longevity on both sides of his pedigree. A very eye appealing package in this young calf who possesses extreme calving ease with an impressive spread on his performance numbers. Rito Revenue 5M2 of 2536 PRE is known for his calving ease, carcass merit and easy fleshing ability.

RIDEAU ANGUS FARM

Welcome to our first of many Angus Bull offerings in the RSK Farms Elite Genetics Bull Sale. The Rideau Angus Farm Herd started in 1944 by my grandfather Jim Peaker. He always strove to breed very functional easy doing cattle who were performance driven. Both my parents and I have carried on that tradition over the years when selecting and breeding the herd that my grandfather started. Since moving to Douglas I have brought a small group of cows with me and my parents still have the rest of the herd back in Ontario. These two bulls on offer will be the start of the angus division for the RSK Farms Sale and we are excited to build and offer a larger selection of genetics in years to come. We have always selected on good quality and high efficiency animals that are built to last. Feel free to stop in anytime and see the cowherd as my grandfather always said "the proof is in our pastures".

SIRE :: PLAYBOOK 5437

405H is out of one of our main donor cows the "liberty belle" family. He is backed with calving ease and performance. His sire TEX Playbook is continually breeding calves with lots of base and muscle expression and breed leaders for weaning weight, docility and milk traits. This guy is much like his farther, just a march calf he possesses extreme docility, hes very long bodied, thick topped and very structurally correct.

Testimonial

In the past we have purchased three Charolais bulls from McCaw Livestock. The bulls have a great disposition, but most importantly show up here as yearlings and fit right into our ranching environment. Wacey has developed these bulls with workability and longevity in mind so when they begin their breeding career as a yearling they can stand up to the work load and environment while at the same time continue to mature to be big herd bulls.

NEIL AND JACQUELYN DAVIS AND FAMILY

Wacey McCaw & Shailyn Madsen
Wacey McCaw 306-471-0093

MCCAW LIVESTOCK

We sure have not had a year of "normal"; rather it has been a year of many ups and downs. But one thing that has endured the challenges through this Pandemic, as they call it, is Agriculture. It was not set back in the least. It remained resilient as it could through all the uncertainties that we faced. Big cattle were met with big demand this fall. To produce this type of cattle, we are continually focusing on keeping our birth weights in check, while producing calves that push the scale down on the 205-day weights. We place a lot of emphasis on vigor, and this trait has become an extremely important selection criterion. This attribute has been a true testament over the last couple of weeks. Working off the farm every day during this cold and miserable weather has shown us the importance of calf vigor. Those nice, shaped calves with a lot of vigor come running out and they just do not look back. This has given us a piece of mind through this cold spell.

As we all know, due to the COVID-19 restrictions, all shows were cancelled and there were no extra events held. In turn, this allowed us more time to work with this group of bulls. We are extremely excited to be able to share them with you on March 28th at Douglas Mb. This set of bulls is totally unique, in several ways. On paper, these bulls read very well and should intrigue any cattlemen no matter your colour preference. Their disposition and easy demeanor are second to none. In fact, when walking through the pen they are a pain because they always want scratched! Thanks to Shailyn for giving all the extra time to them. I swear she must go out there every time she is mad at me or when she thinks I have a stupid idea... All joking aside, she has spent a lot of time with them. Things have not changed a lot at McCaw Livestock. We are always striving to continue to produce quality cattle that will allow them

to go out and be able to work for you. We have had the privilege to work with some very astonishing cattlemen and women that have helped us excel. We sincerely appreciate that and look forward to the continued success that we can share together. With that being said, we are doing something a little different this year and will continue to do so. **We are offering a 2% discount to repeat customers.** Just a small token of our appreciation of what you have done for us that has helped us get here today. So again, thank you.

We will be happy to house your purchase until the beginning of May. After this date, we will deliver them to your place. This will allow them to familiarize themselves with their surroundings, settle in, and perform for you as soon as you want them to. We understand that this timeframe may not work for some, so we are more than happy to accommodate. And as always, if there are ever any problems with your purchase, please let us know. We will work together to find a solution.

Thank you, again, to all our past customers. We look forward to creating new relationships and building strength together off them. Cheers and we look forward to sharing this offering with you.

A couple of weeks younger than his half brothers, but certainly not far behind. He has a look that shows a lot of natural thickness. The package that he displays is very complete in design. Come for a tour or a give us a call. I don't know which one is our favourite, but we would love to talk more about them. The maternal sister out of Commissioner is about to calve here any day and she is one we would love to brag about - the udder development and teat placement on her is fascinating! A maternal brother is working at Clay Enterprises.

HERD BULL ALERT! These bulls are a result of a very successful flush. Every time I go into the pen and admire them, they are what makes the beef business fun. This flush would make my Dad proud with how the results have turned out. Both individuals are very completely made in their type and kind. They both are extremely sound in their foot and leg design. They both stride out in an elegant way that boasts their "look at me" presence. A maternal brother on their mother's first crack was sold to Adam Knutson at Clay Enterprises. They have loved the way he has developed. Look no further as this is the real deal. Another maternal brother sells as lot 26 - MCL 983H. **HERD BULL ALERT**

A very enticing bull with his design, soft rib, extremely hairy hair coat and a "look at me attitude". We really admire these Whataboy progeny for their shape, hair and built-in longevity. Whataboy is still walking and he turns 10 this year. And on top of that, he bred fifty cows last year! A maternal brother is working for Bob Lowe up in the Interlake. His mother has a heifer calf at her side this year that will be one to watch for in the future.

HERD BULL ALERT! I don't have many Angus bulls to offer but this bull is pretty special. This is a bull that is extremely well rounded. I believe he could go into a program(s) and make a difference. The genetic potential on this bull is endless. This is a red angus bull with MASS, strives in excellence with hard, dark FEET. This bull is not like your typical angus bull. The natural width in this bull's pin set shows me, and will show you, the muscle definition that comes so easy for him to express all way down into his lower quarter. I want to draw your attention to the correctness in design of this bull's leg structure and foot. He displays a lot of heel yet exhibits ample flex in his pastern. This bull has some strong, smooth bone on him to be able to carry the body mass. Excited to see what this guy's future will be! It will all be in the eye of the beholder and it could be HUGE! Give a call about this bull. Would love to talk about him and his pen mates, as I am very proud of all of them.

If you like bulls with their belly low to the ground, then here is your one stop shopping. The bulls off the 266U cow just keep getting better with age. We have sold a son to Rodney Richards up at Yorkton, and Steven Knutson has sold many other sons off 266U in her early years of production before I got my hands on her. I can't speak much about her daughters, as she has only had one in her lifetime. But her one and only is developing into a nice little cow with a beautiful udder. This guy is a natural calf, and his dam is still in production and due to have another calf again this spring. The longevity and the fleshing ability of this bull will be desired for years to come.

COMMERCIAL FEMALES

We are excited to offer an avenue to market your "Hereford Influence" commercial cattle that are Elite Genetics Bred, in the Elite Genetics Bull Sale. Buy with confidence and know that we believe in our genetics enough to provide you an outlet to market them!

GROUPS OF COMMERCIAL FEMALES ON OFFER BY:

EG35

OLD SHORE CATTLE CO. **GRAHAM TAPLEY 204 903 7899**
2 GROUPS OF SIMMENTAL X ANGUS/HEREFORD HEIFERS

The heifers on offer sired by Black Simmental bulls (BW of sires in breeding group; 75, 91 & 93 lbs). All heifers are born in the first cycle and none of the dams required assistance while calving. We aim to produce hardy, hard working mothers from Hereford, Black Angus cross dams and punch up production with Black Simmental sires. These heifers are the top end of this pen as we select our own replacements from a different part of our program in order to continue bringing 3-way cross calves to market. These are April born calves who received Bovi Shield Gold and Ultrabac 7/Somubac approximately two months after birth, boosted two weeks before weaning and again two weeks before sale. Treated with Ivomec mid-December. Over winter they have been on a diet of Alfalfa grass hay and corn. Fenceline weaned in November.

HINSBURG HOMESTEAD **STEPHEN HINSBURG 204 724 5876**
GROUP OF 2 HEREFORD X CHAR/HEREFORD HEIFERS | GROUP OF 2 SIMMENTAL X CHAR/HEREFORD HEIFERS

Hinsburg Homestead started with purebred Charolais cows, We wanted to go commercial and we're looking for vigour and add some tan white faces to the herd. Our first Hereford bull was a Traveller son from RSK and he did an awesome job giving us what we were looking for. He is heavily influenced here with many daughters raising calves for us. We have since bought a couple more bulls from the RSK program and Andrew has been after me to put a pen of replacements in the sales. It's hard to offer these heifers as they fit so well into my own program. But I promised I'd bring a pen for the 2021 sale. This pen are RSK influenced more than just the sire. They have longevity performance and soundness bred into them. We are a VBPPPlus farm and vaccinate with Covexin and Pyramid as well as Ivermectin pour on. 2 heifers sired by our Freestyle son and out of Traveller X Charolais cows. Other 2 heifers by our Red Simmental Predestined son out of Traveller X Charolais cross cows. Don't miss these April born heifers sale day.

EG36

EG37

SUNNY RIDGE STOCK FARM **ADAM HOPCRAFT 204 761 3313**
2 GROUPS OF CHAROLAIS X HEREFORD HEIFERS

Sunny Ridge Stock Farm began in 1999 when Ken and Vonda Hopcraft moved to the family farm, located approximately 10 miles southeast of Wawanesa, Manitoba. In 2015 The Purebred Charolais herd was established, as the purebred herd and commercial herds have grown we aim to keep good mother cows with good utters, loads of milk, sound feet, and that mother ability that we all expect. Thank you to RSK Farms for inviting us to be part of the 2021 Elite Genetics Bull Sale. We are excited to have the opportunity to consign some of our best commercial heifers. These heifers are from top end commercial cows. The group of white heifers were raised from Charolais cross cows and sired by Sunny Ridge Bullet 5A, and Sunny Ridge Diesel 2B. The Charolais heifers averaged 703 pounds at weaning. The tan group of heifers are also from Charolais cross cows and averaged 692 pounds, sired by Red Angus bulls. These calves were born February and March of 2020. The heifers have been vaccinated with Calf-Guard and Toltrazuril at birth, Tasvax 8, and Express 10 at 4 weeks with booster at weaning as well as Ivomec pour on. For more information and to view our heifer pen please contact Ken and Vonda 204- 824-2115 or Adam 204-761-3313.

TERMS & CONDITIONS

BULL WARRANTY: The consignors guarantee to sell you a bull that has passed a semen test performed by a licensed veterinarian. Should a bull fail to be a satisfactory breeder that is unable to physically breed a cow or heifer, a credit will be given towards the purchase of another bull. We guarantee to provide you with a sound breeding bull, but will not provide replacement or credit for physical injury or mismanagement. Bearing this in mind, we strongly advise you to insure your bull. All problems must be reported to the consignor in writing. The bull must be returned to the consignor immediately when the problem is detected, at the buyer's expense. The consignor will have the bull examined by a veterinarian, and will have 60 days to prove the bull a breeder. If the bull does not prove to be a breeder, the buyer will be entitled to a complete refund of the purchase price of the bull in question. Should the bull prove to be a breeder, he will be returned to the buyer at the consignor's expense, and the matter will be considered closed. In the case of losses, the consignor's will only be responsible for the original purchase price of the animal. We assume no liability, legal or otherwise, to make any compensation to the buyer.

THE CONSIGNORS: Reserve the right to in-herd semen use on any bull sold in the sale, with semen drawn at the consignor's expense, and the buyer's convenience.

WINTERING: Buyers choosing to have their bulls come back to the consignors will be charged \$5.00 per day beginning April 28th. Bulls remaining in the wintering program must be insured by the purchaser. If they are not insured, they cannot stay.

DELIVERY: The consignors will offer free delivery on all bulls up to a 200km radius, additional mileage rates will apply after 200kms at cost. If bulls are picked up on sale day, the buyer will receive a \$100.00 credit off their purchase.

USA DELIVERY: We are happy to assist with the paperwork and getting your purchases across the border. Sellers are responsible for health papers & transportation costs from seller's yard to the nearest border port or nearby location up to a cost of \$400.00. Buyer covers Brokerage, Other Associated Fees, and Transportation costs from the nearest border port or nearby location to their destination of choice.

VOLUME DISCOUNT: Purchase 3 bulls to receive a 3% discount, 4 bulls for 4%, and 5 bulls or more for 5%.

SIGHT UNSEEN PURCHASES: If you are unable to attend the sale day, we would be happy to discuss your program to help select to most suitable bull for your herd. 100% Satisfaction Guaranteed.

TERMS: The terms of the sale are cash or cheque, payable at par at the sales location, unless satisfactory credit or invoicing arrangements have been made prior to the sale. The right of property shall not pass until settlement has been made. US exchange rate will be made prior to the sale.

ANNOUNCEMENTS: Announcements from the auctioneer will take precedence over any material printed in this catalogue.

REGISTRATION & TRANSFER: A registration certificate of the animal will be duly transferred to the purchaser.

LIVE SALE: Seen as cattle sales are essential, we will be conducting our sale as usual with additional Covid protocols in place.

LIABILITY: The owners, their employees, sale staff, and representatives accept no liability for accidents that may occur. Persons who attend do so at their own risk.

Thank You
